

SAFE PAYMENTS

“We generate more revenue since we started using it”

YOU DON'T TAKE ANY RISK WITH MONEY!

We believe in honest business doing and equality between customer and supplier in financial transactions. SAFE Payments helps suppliers to professionalize the payment process of orders by offering their customers a simple online payment method and extra security and guarantee. With SAFE Payments you ensure timely payment of the full order amount before delivery takes place, you offer your customers an extra service and you can easily manage your orders online.

Your benefits

- Acting in the interest of your customer without the risk of non-payment
- A professional service in favor of your company image
- Full payment by the customer before the job starts
- An extra service and buying motive for customers
- Minimal debtor management
- Easy and safe online payments
- Simple and flexible online system with automatic payment requests and notifications to both parties
- No purchase obligation or hidden costs

And for your customers

- No more reason for your customer to not pay in advance
- Guarantee in case of bankruptcy of supplier
- Funds are kept securely in escrow until the moment of delivery
- The option to partially defer the payout in the event of a dispute until it is resolved
- Simple and quick online payment through your own personal order page

Trust and certainty for both parties. We give you peace of mind so you can focus on what really matters to your company: delivering excellent quality products and service and achieving high customer satisfaction.

Secure

SAFE Payments is an online order management system with an integrated secure payment solution for financial transactions between you and your customer, where all payments are processed through the SAFE system. This conditional payment solution is ideal for transactions where the time of delivery and payment are often not simultaneous. With the SAFE payment method, the purchase amount is safely held in escrow until the delivery has been made as agreed. Only then the funds will be paid out to the merchant.

Assured

This assures your customer that their money is safe until the moment you have delivered, while you can rest assured that the payment for the sale is available. This way, both parties are offered full protection. Neither party will have the money and the product at the same time. In the unlikely event that something goes wrong with the delivery, the pay out can be (partially) blocked through SAFE until the problem has been solved. After all, a deal is a deal.

HOW SAFE WORKS IN 7 SIMPLE STEPS

1 Create a free account on onlinesafepayment.com

2 Choose SAFE as the payment method when concluding the purchase agreement

3 Enter your order

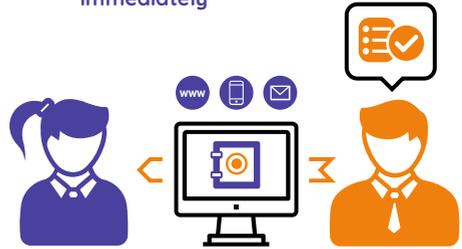

4 Send the order confirmation

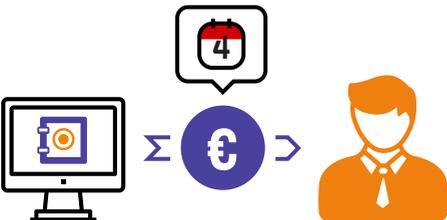

5 Your customer makes payment(s) through SAFE

6 Upon delivery you state this in SAFE, the customer will be notified immediately

7 Payout takes place after 4 days, and immediately with approval
